

Huawei Appoints Veygo as Certified Technology Partner for multiscreen video services

February 5th, 2016

Shenzhen, China and Paris, France – Huawei and Veygo have announced today a Technology Partnership aimed at helping service providers to build audiences and generate enhanced revenues from their multiscreen businesses.

Based on two successful joint deployments, this certification follows the integration, testing and approval of Veygo's Secure Video Player and User Interface Framework within Huawei's leading back-end hardware and software solutions for multiscreen Broadcast, IPTV and OTT video services.

Ms/Mr ... , ... for Huawei, commented: "Veygo is a very important partner for Huawei, and we are delighted that this innovative team have achieved all the criteria for certification as a Huawei Technology Partner"

Ms/Mr ... added: "Veygo offers powerful video solutions for service providers looking to deliver premium content across multiple networks. Huawei and Veygo will leverage their combined solutions to offer a truly personalised and flexible user experience, enjoyed by viewers anytime and anywhere."

Jean-Christophe Perier, CEO and Founder of Veygo, said: "We consider the Huawei integration and certification to be a major achievement for Veygo, and we're looking forward aligning further our roadmaps and jointly addressing commercial opportunities." "With this partnership, we uphold our promise to deliver unique value to our customers. We've focused our resources on designing a front-end solution truly enabling multiscreen services with innovation, scalability and business efficiency as clear priorities. Complementing Huawei global expertise on end-to end solutions and services, our secure media player and user interface framework will enable service providers drive viewers' engagement and maximize profit potential."

About Huawei

Huawei is a leading global information and communications technology (ICT) solutions provider. Our aim is to build a better connected world, acting as a responsible corporate citizen, innovative enabler for the information society, and collaborative contributor to the industry. Huawei's 170 000 employees worldwide are committed to creating maximum value for telecom operators, enterprises and consumers. Our innovative ICT solutions, products and services are used in more than 170 countries and regions, serving over one-third of the world's population. Huawei currently has over 9 900 staff based in Europe, of whom 1200 are working in R&D. We run 18 R&D sites located in eight

European countries (Belgium, Finland, France, Germany, Ireland, Italy, Sweden and the UK) and operate numerous joint innovation centres in partnership with telecom and ICT partners. Further information is available at www.huawei.eu and www.huawei.com.

About Veygo

Founded in 2012, with R&D and operations in the USA, France, Indonesia and Singapore, Veygo makes multiscreen premium video services simple and profitable.

Combining an advanced secure video player, analytics, discovery, personalization and end-to-end premium content workflow management capabilities, social media integration with innovative dashboards and focused service expertise, the Veygo Digital Experience Intelligence Platform enables Service providers to re-imagine the Content to Consumer Experience.
